### Please Note:

- All students should have vaccinations once in three years.
  - All children below the age of 10 years should have a course of Triple antigen.
  - Children above the age of 10 who have not had Triple antigen should have a course of Tetanus toxoid.
  - Children below the age of 10 should have a course of Polio vaccine.
  - All students should take T.A.B inoculation against Typhoid every year, preferably in June
  - Students should have regular dental check— ups and eye test at least once a year.
  - If any of the above information is found to be false and incorrect, the child's admission is liable to be cancelled.
- Follow —up, if any, recommended by the school physician should be necessarily attended to through your regular physician.
